

WILL NOT GIVE WAY

Sugar Men Fight Against the Cubans.

(From Saturday's daily.)

P. N. Lillenthal, manager of the Anglo-Californian bank, was among the passengers who arrived in the Alameda yesterday afternoon. Mr. Lillenthal is accompanied by his wife and son and the wife and daughter of his cousin, there being in the party as well Mr. Albert Langerman, who has heavy interests in Hawaiian shares, and Miss Alice Gerstle, a friend of Mrs. Lillenthal, who is traveling with the pleasure party. Mr. Lillenthal said yesterday that he was only for pleasure, and would stay for two or three weeks, or so long as was necessary to see and enjoy all that is to be seen. Invitations have been presented to Mr. Lillenthal and party already for several of the most pleasing of the excursions about the islands. The special car of Mr. Dillingham has been placed at the disposal of the party for a trip through the plantations, and Mr. L. A. Thurston has invited the members of the party to be his guests for a trip to the volcano. Mr. Lillenthal said:

"I had the most certain information before leaving San Francisco that sentiment in favor of Cuba was changing, and there was then little danger that there would be reciprocity between the two countries on the basis of free sugar and free tobacco. The fact that the whole scheme is one whereby the members of the sugar trust hope to gain larger returns from plantations which they purchased cheap, is being generally recognized and the people of the country are becoming aroused to the danger which lies in such action to the future of the sugar industry. Cuba is doing very well and the granting of a reduction on the sugar there would only result in the securing of larger returns by the trust, not in any advantage to the people. Senators and members of Congress are beginning to feel the weight of the influence of the farmers, and the outlook is very cheering for the sugar interests of the United States.

"Hawaiian securities in San Francisco are holding their own very well. There is little feeling of uneasiness, rather the people there see that there will be a great revival of business here, just as soon as the money begins to come in from the sugar crops which are now being grown, and they are not in the least uneasy over the future. San Francisco is putting its money in some of the best ventures here, and I believe will continue to do so. There is a great deal of interest felt there in the future of island trade, but with the clearing of the Cuban situation there seems to be no reason to fear that there will be any serious decline in values of local holdings.

"Business men of San Francisco are watching with interest the outcome of the launching of the new administration of city affairs. Mayor Schmitz is a representative of the labor party, a man who has never studied questions of government closely, and one who has of course little knowledge of ways and means. However, he seems to be starting right, as he is ready to do what is fair and is taking advice from some of the best men. The real power behind the throne is A. Ruef, who has been his adviser so far, and without doubt will continue to be. The great interest felt by all business men is that Mr. Ruef is a man who is kept closely watching their standing in the city. I am very hopeful that the administration will be a good one, though it will have to be compared with a rather exceptional one at the head of which was Mayor Phelan.

"I have long contemplated this trip, and I will enjoy all the time to the full. Although I am largely interested in the First National Bank, I did not come here to take any active part in its affairs, and if I do act in any way it will be only after investigation of the situation, and a thorough understanding of all sides of the matter."

AT THE NATION'S CAPITAL

(Continued from page 1.)

Wherever the stars and stripes float Americans will hear the drum beat. The defense of Pearl Harbor and Honolulu are urgently needed not only to protect the Territory of Hawaii and the property of the United States located there, but also to prevent the interruption of cable communication between San Francisco and Honolulu, which will be a station of the projected Pacific submarine cable.

R. W. Breckons of Wyoming was confirmed by the Senate Jan. 13 as United States District Attorney for Hawaii, and left here Jan. 18 for Wyoming. He expects to sail from San Francisco for Honolulu Feb. 18. Late this afternoon the Senate Committee on the Pacific Islands and Porto Rico, Senator Foraker, chairman, had not reported on the nominations of W. J. Robinson to be Circuit Judge and Eugene R. Hendry to be United States Marshal, but the clerk was intending to poll the committee that the nominations might be taken up in the Senate. Mr. Foraker has been absent in Ohio much of the time since the holidays, engaged in his canvas for re-election, and for that reason has paid little attention to the business of the committee. There has seemed to be no one to

press the confirmation of either Judge Robinson or of Marshal Hendry, and for that reason there has been delay in action. Mr. Breckons has a brother in the Senate Committee on Claims and the Wyoming Senators are his warm friends. Accordingly they pressed his nomination before the Pacific Islands Committee, and secured an earlier confirmation.

The rumors of opposition to the nomination of Judge Robinson are unfounded. Mr. Cayless was credited with an intention to oppose confirmation, but as a matter of fact there has been no opposition whatever.

Two bulky bills have been introduced in the House for Delegate Wilcox. One of these is a bulky bill to establish and maintain a system of free schools in the Territory of Hawaii, naming school officers, their duties salaries and fees; how school funds are to be collected and disbursed. It was referred to the Committee on Territories, but is such a long bill that it has been received from the Government Printer at the time Hawaiian mail closes here.

The other is a bill providing for and creating certain counties in the Territory of Hawaii, and providing a form of government for such counties; officers to enforce the law, the pay of such officers, and how the same shall be collected. This bill came from the public printer late this afternoon and covers 159 printed pages. It provides for the division of the Territory into five counties and for an elaborate scheme of county government.

Mr. Sewall, when seen at the New Willard this afternoon stated that he was not participating in Hawaiian politics and was having no hand in the selection of officers for the Territory. Some of the knowing ones, however, are guessing that he is turning a wheel or two, whenever opportunity offers, to make Col. Sam Parker the next Governor of Hawaii. It is only conjecture and is mentioned for whatever it may be worth.

DAVID MAY BUY SIR ALBERT

The season of the sport of kings is again coming round, and indications are to be seen on every hand of the opening of the campaign.

Today Jim Quinn will take Waldo J. and Cyclone to the track and install them in the quarters they will occupy until July next. Waldo J. is looking fine, and Quinn is confident that he will lower his mark of 2:08 this year. The "White Ghost" stable companion, Cyclone, is a black pacer with no record. Both horses have done useful road work for some time past.

W. H. Smith is said to have a good one in his new 2:17 1/4 pacer which he recently received from the coast. The horse is a blood bay gelding, standing nearly sixteen hands and which can pace to his mark.

It looks as if the coming season would be the best on record with more and better and faster horses on the track than ever before.

This year the Jockey Club's meeting will be held on the first Monday in March, nearly two months earlier than has been the case in previous years. At a meeting of the club held last year the by-laws were amended to this effect:

E. McInerney, owner of Little Logan, the dam of Sir Albert S., 2:08 1/4, is contemplating sending the mare to California to be again bred to the mighty Diablo, sire of Sir Albert S.

It rumored yesterday that Prince David was negotiating for the purchase of Sir Albert S., for which \$5000 is asked. The son of Diablo is regarded as the coming American pacer. Jim Quinn, when told of the rumor yesterday, said that he would like to match Waldo J. against the Californian wonder.

He thinks the white horse would come out of the race with flying colors.

THE BURGLAR FOUND NOTHING

Between the hours of 6 and 7 o'clock on Thursday evening a thief broke into the office of the Consolidated Soda Water Company, corner of Fort and Allen streets, and rifled the desks there but obtained nothing for his efforts. Book-keeper Fraser came to the office at 7:30 o'clock, and upon opening the outer door saw at once that the office had been sacked. Upon investigation he found the sky-light lifted showing that the thief had obtained entrance at that place.

Every drawer in the desks had been pulled out and rifled, but as there was no money in them and practically nothing of value was kept there, the thief went away without payment for his time and trouble. The safe was untouched.

SOMETHING THAT WILL DO YOU GOOD.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. EUROPE DEBATES UNMEANING OF PRINCE HENRY'S JOURNEY

NEW YORK, January 25.—Commenting upon the visit of Prince Henry to the United States, the Berlin correspondent of the Tribune says:

Prince Henry's mission to America is regarded here as a good-natured attempt of the Emperor to make himself agreeable to a friendly nation whose progress, wealth and influence in the world are steadily increasing. Possibly he remembers that the visit of the Grand Duke Alexis to America left a permanent impression and created an amiable prejudice in favor of Russia, but it is not probable that he has planned a counter-stroke to offset the English concessions to America and Lord Salisbury's good offices in the Spanish war. Diplomatic opinion here is that Prince Henry's visit is regarded too seriously at Vienna, Paris and London and that the British government allowed itself to be drawn too easily into making a half revelation of the important services rendered to the United States in the critical period. It is denied strenuously by the officials that there is any evidence that Germany was behind Austria-Hungary in proposing European intervention in Cuba. The diplomatic theory here is that the German Emperor is not playing a deep game in having his yacht named by a fellow-sportsman's daughter with Prince Henry as a witness. The Emperor is clearly taking a strong personal interest in the affair and doing everything to dignify the mission. Prince Henry is undertaking the mission with great spirit, is thoroughly interested in all the details and is said to be looking forward with pleasure to meeting an old friend, Rear Admiral Evans. As the Prince will visit Harvard College, it will be a graceful act for the corporation to confer upon him an honorary degree. The Emperor's gift for the German-American Museum at Harvard will be a more costly and comprehensive exhibit of German art than generally supposed. It helps to explain the Royal mission for the yacht launching. The Emperor likes to pay compliments and do things in a handsome way and his motives are not necessarily self-interested nor closely calculated in the approaching international episode.

WANT FLAT RATE FOR ELECTRICITY

(From Saturday's daily.)

For a few moments yesterday morning there was a little bit of electricity at the meeting of the Hawaiian Electric Company that did not come from the dynamo of the company.

The meeting was a short one, there being no reports ready, owing to the fact that the auditor had not completed his work. But this fact was not sufficient to shut off the storm, which was coming. There was an element in the meeting ready to investigate, and owing to the recent criticism of it, asked for a change in the methods of the company.

A resolution was presented providing that the company place its service upon the basis of a flat rate. The moment this was presented there was a storm of objection. It was argued that to do this would mean that every user would burn his lights all the time, and so make it impossible to supply the town with the present plant. So great was this objection that it was decided to refer the matter to a committee to report at the meeting, which will be held February 21. This committee is composed of Messrs. Waterhouse, P. C. Jones and Geoffrey Brown. It is not believed there will be any change.
